Good News for Sheep Farmers
The well-known Veterinary Surgeon
Mr Robert Hall, M.R.C.V.S.
Inventor and Sole Manufacturer of the popular
HALL'S SHEEP DIP
Having determined to introduce this valuable Composition into general use in the Argentine Republic, has appointed Messrs Barnett & Co. his Agents for the River Plate.
This Dip is preferred to all others in Australia and New Zealand, where it has successfully sold a competitive trial for many years. The Inventor claims for this Dip the following advantages:
1st.—It is instantly and completely soluble in either warm or cold water.
2nd.—It is non-poisonous in its effects on Wool or Sheep, and healing to all Sores on the Skin.
3rd.—It is a certain preventive, and perfect cure for SORE.
4th.—It most effectually destroys Lice, Sheep Ticks, Maggots and every other kind of Parasite found on Sheep and Hogs.
5th.—It is acknowledged by all who have used it, to be the best composition known for improving the quality and promoting the growth of the Wool.
6th.—The Dip is invaluable for protecting the Sheep from the attacks of Fleas and Maggots.
This Dip has been imported into this country by some large Sheepfarmers already, and used in preference to any other, for some years back; but it is only lately an Agent has been appointed.
Important
This Dip is guaranteed to be manufactured only by the Inventor in England, and is of course very superior to the many Dips made in this country.

ZOEDONE
Ohne Phosphor in Gedanke
ZOEDONE
THE NEW DRINK
A restoring and stimulating but non-alcoholic BEVERAGE
Letter from Dr Lucas, Bombay, Medical Dept. Author of the Elements of Indian Hygiene etc.
"I am of opinion that your invaluable aerated beverage Zoedone deserves the highest attention at the hands of the Indian public. It is not only a health giving drink but essentially, containing as it does the quadruple phosphates of Iron, Lime, Potash, and Soda, a health restoring drink per excellence, reviving and refreshing the vital powers. It would be a blessing indeed if it could be so introduced into hotels, restaurants, regimental messes and canteens. To weakly females in India it would decidedly tend not only to the amelioration of their own health, but that of their offspring, the future generations of men and women. I need scarcely allude to its indication as a remedial and dietetic agent in case of malarial fevers, phthisis etc."

Letter from Geo. S. A. Rankine, M.A. M.D., Cantabre Surgeon, Indian Medical Department.
"I am of opinion that in Zoedone is to be found a complete solution of the problem which has long exercised the minds of the Medical profession in India, viz, the discovery of a beverage which shall assuage thirst, restore nervous waste, and while being palatable, be also non-alcoholic. It is my firm conviction that if Zoedone be introduced into India it will meet the requirements of those who wish to restore their nervous system without impairing their lives."

South African Ostriches
Ex-Sarmiento from CAPE TOWN
This vessel has arrived at B. Aires with a cargo of
200 Ostriches
which we now offer for sale to the public of the River Plate.
The majority are full grown breeding birds from six or eight years old, and there is also a number from six months to four years old. They are all selected birds, many were bred by ourselves from the first stock, the rest are from the most celebrated Ostrich farms in Cape Colony.
An Ostrich yields from 25 to 30 sterling worth of feathers every 25 to 30 months, the value of the plucking, and time occupied in growing the feathers depending upon the state of the season; in this country where the crop is so much more luxuriant and grain so much cheaper than in Cape Colony the larger amount will probably be nearer the average return.
One pair of breeding birds produce from 20 to 40 chickens per annum, which sell readily in Cape Colony when a few months old from 250 sterling each; if only this low figure be obtained the yearly income will range from £200 to £250 sterling, earned from one pair of birds.
There is not a more profitable industry in the world than ostrich farming, and so highly it is valued in South Africa that several plantations have been presented to the Cape Parliament, and the Cape Colony the larger amount will probably be nearer the average return.
We have therefore every confidence in bringing this important to the notice of the farmers of this country.

Notice the Trade Mark.

Good News for Sheep Farmers
The well-known Veterinary Surgeon
Mr Robert Hall, M.R.C.V.S.
Inventor and Sole Manufacturer of the popular
HALL'S SHEEP DIP
Having determined to introduce this valuable Composition into general use in the Argentine Republic, has appointed Messrs Barnett & Co. his Agents for the River Plate.
This Dip is preferred to all others in Australia and New Zealand, where it has successfully sold a competitive trial for many years. The Inventor claims for this Dip the following advantages:
1st.—It is instantly and completely soluble in either warm or cold water.
2nd.—It is non-poisonous in its effects on Wool or Sheep, and healing to all Sores on the Skin.
3rd.—It is a certain preventive, and perfect cure for SORE.
4th.—It most effectually destroys Lice, Sheep Ticks, Maggots and every other kind of Parasite found on Sheep and Hogs.
5th.—It is acknowledged by all who have used it, to be the best composition known for improving the quality and promoting the growth of the Wool.
6th.—The Dip is invaluable for protecting the Sheep from the attacks of Fleas and Maggots.
This Dip has been imported into this country by some large Sheepfarmers already, and used in preference to any other, for some years back; but it is only lately an Agent has been appointed.
Important
This Dip is guaranteed to be manufactured only by the Inventor in England, and is of course very superior to the many Dips made in this country.
